IMPORTANT: Provide this information to employees, customers, and users of this product. Read this MSDS before handling or disposing of this product. This product is covered by the OSHA Hazard Communication Standard and this document has been prepared in accordance with requirements of this standard. All abbreviated terms used in this MSDS are further described in Section 16.

Section 1 - Chemical Product / Company Information

This Material Safety Data Sheet is available in Canadian French and Hispanic American Spanish upon request.
Esta hoja de datos de la seguridad de los materiales está disponible en francés canadiense y en español a su solicitud. Los Datos de Serguridad del Producto pueden obtenerse en Espanol si lo riquiere.

Product Name: Watertight Roof Sealant  Revision Date: 09/12/2006
Product UPC: 7079818268 7079818270  Supercedes: 5/21/2002
Product Use/Class: Asphalt Sealant  MSDS Number: 00010004001
Manufacturer: DAP Inc. 2400 Boston Street Suite 200 Baltimore, MD 21224-4723 888-327-8477 (non-emergency matters)

Exposure Notes:

<table>
<thead>
<tr>
<th>CASRN</th>
<th>Exposure Note</th>
</tr>
</thead>
<tbody>
<tr>
<td>14807-96-6</td>
<td>The talc (CAS number 14807-96-6) within this product naturally contains a non-fibrous tremolite (CAS number 14567-73-8), non-fibrous antigorite (CAS number 12135-86-3), and non-fibrous anthophyllite (CAS number 17068-78-9). Refer to 29 CFR 1910.1000 Table Z.3 for the permissible exposure limits associated with non-fibrous talc and these naturally occurring incidental constituents.</td>
</tr>
</tbody>
</table>

Important: Listed Permissible Exposure Levels (PEL) are from the U.S. Dept. of Labor OSHA Final Rule Limits (CFR 29 1910.1000); these limits may vary between states.

Note: An employee's skin exposure to substances having a "YES" in the "SKIN" column in the table above shall be prevented or reduced to the extent necessary under the circumstances through the use of gloves, coveralls, goggles or other appropriate personal protective equipment, engineering controls or work practices.

Section 3 - Hazards Identification
Emergency Overview: A black paste product with a strong solvent odor. WARNING! Do not breathe vapors. May cause eye, skin, nose, throat and respiratory tract irritation. HEATING MAY RELEASE HYDROGEN SULFIDE GAS (H2S). Provide fresh air such that chemical odors cannot be detected during use and while drying.

Refer to other MSDS sections for other detailed information.

Effects Of Overexposure - Eye Contact: May cause eye irritation. May cause eye irritation, characterized by a burning sensation, redness, tearing, and inflammation. Signs and symptoms may include: pain, tears, swelling, redness and blurred vision.

Effects Of Overexposure - Skin Contact: Signs and symptoms may include: pain, discoloration and swelling. Harmful if absorbed through the skin. Prolonged exposure to the skin may dry the skin and cause dermatitis or burns. DO NOT try to peel the solidified material from the skin or use solvents or thinners to dissolve it. The use of vegetable oil or mineral oil is recommended for removal of this material from the skin. Flush exposed area with water while removing contaminated clothing. Get medical attention if irritation persists. May cause skin irritation.

Effects Of Overexposure - Inhalation: Vapor harmful. Inhalation may cause irritation to the respiratory tract (nose, mouth, mucous membranes). Vapors may be irritating to eyes, nose, throat, and lungs. Inhalation of high vapor concentrations can cause central nervous system depression and narcosis. This substance contains sulfur compounds that may form hydrogen sulfide. The rotten eggs odor of hydrogen sulfide is unreliable as an indicator of concentration. Signs and symptoms of over exposure to hydrogen sulfide include respiratory tract irritation, headaches, dizziness, nausea, gastrointestinal disturbances, coughing, a sensation of dryness and pain in the nose, throat and chest, confusion and unconsciousness. Hydrogen sulfide concentrations of 1000-2000 ppm can be extremely hazardous. This hazard evaluation is based on data from similar materials. Dust from dry sanding may cause eye, skin, nose, throat and respiratory tract irritation.

Effects Of Overexposure - Ingestion: Harmful or fatal if swallowed.

Effects Of Overexposure - Chronic Hazards: Studies in which mice were exposed to a variety of whole asphalts did not result in any increased cancer rate; mice exposed to asphalts diluted with hydrocarbon solvents had increased incidence of certain types of cancer. Brief or intermittent skin contact with this asphalt product is not expected to produce any delayed effects. While normal handling of this product is not likely to cause cancer in humans, skin contact and breathing of mists or vapors should be reduced to a minimum. This product contains clay, which contains crystalline silica. Crystalline silica has been listed as a carcinogen by IARC; however, the particles are coated with asphalt and are not available for inhalation. As such, there is little or no chance of inhalation of crystalline silica and resultant diseases.

Primary Route(s) Of Entry: Skin Contact, Inhalation, Eye Contact

Medical Conditions which May be Aggravated by Exposure: None known.

Section 4 - First Aid Measures

First Aid - Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

First Aid - Skin Contact: Immediately remove from skin by wiping with waterless hand cleaner followed by soap and water. Get medical aid if symptoms persist.

First Aid - Inhalation: If inhaled, remove to fresh air. If breathing is difficult, leave the area to obtain fresh air. If continued breathing difficulty is experienced, get medical attention immediately. If there are signs or symptoms of hydrogen sulfide exposure (respiratory tract irritation, headache, dizziness, nausea, gastrointestinal disturbances, coughing, a sensation of dryness and pain in the nose, throat and chest, confusion and unconsciousness), move the person to fresh air. If breathing has stopped, apply artificial respiration. Call a doctor.

First Aid - Ingestion: If swallowed, DO NOT INDUCE VOMITING. Get medical attention immediately. Never give anything by mouth to an unconscious person. If possible drink milk afterwards. Harmful or fatal if liquid is aspirated into the lungs. If swallowed, drink 8-10 oz. of water, get immediate medical attention.
Section 5 - Fire Fighting Measures

Flash Point, F: 163  
Method: (Pensky Martin Closed Cup)  
Lower Explosive Limit, %: Not Established  
Upper Explosive Limit, %: Not Established

Extinguishing Media: Carbon Dioxide, Dry Chemical, Water Fog

Unusual Fire And Explosion Hazards: None known.

Special Firefighting Procedures: Wear self contained breathing apparatus for fire fighting if necessary. Do not use a solid stream of water since the stream will scatter and spread the fire. Water mist may be used to cool closed containers.

Section 6 - Accidental Release Measures

Steps To Be Taken If Material Is Released Or Spilled: Wear proper protective equipment as specified in Section 8. In case of spillage, absorb with inert material and dispose of in accordance with applicable regulations.

Section 7 - Handling And Storage

Handling: KEEP OUT OF REACH OF CHILDREN! DO NOT TAKE INTERNALLY. Do not breathe vapors. Provide fresh air such that chemical odors cannot be detected during use and while drying. Do not get in eyes, on skin or clothing. Wash thoroughly after handling. Keep away from food, drink and animal feedstuffs.

Storage: Close container after each use. Store away from caustics and oxidizers. Keep containers tightly closed in a dry, cool and well-ventilated place.

Section 8 - Exposure Controls / Personal Protection

Precautionary Measures: Contact lenses pose a special hazard; soft lenses may absorb and all lenses concentrate irritants.

Engineering Controls: Provide sufficient general and/or local exhaust ventilation to maintain exposure below recommended exposure limit. Ensure adequate ventilation, especially in confined areas. Provide sufficient air exchange and/or exhaust in work rooms. Use only in well-ventilated areas.

Respiratory Protection: A respiratory protection program that meets the OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use. If concentrations exceed the exposure limits specified, use of a NIOSH-approved supplied air respirator is recommended. Where the protection factor is exceeded, use of a Self Contained Breathing Apparatus (SCBA) may be necessary.

Skin Protection: Wear neoprene gloves.

Eye Protection: Goggles or safety glasses with side shields.

Other protective equipment: Safety shower and eyewash station should be located in immediate work area. If repeated or prolonged contact with liquid is likely, wear protective clothing including boots, apron, and face shield or splash goggles.

Hygienic Practices: Contaminated clothing should be changed and washed before reuse. Eating, drinking and smoking in immediate work area should be prohibited.
**Section 9 - Physical And Chemical Properties**

- **Boiling Range:** Not Established
- **Odor:** Strong Solvent
- **Appearance:** Black
- **Solubility in H2O:** Not Established
- **Freeze Point:** Not Established
- **Vapor Pressure:** 3.1 mmHg @ 68 F
- **Physical State:** Paste

Vapor pressure of this product has been calculated theoretically based on its constituent makeup and has not been determined experimentally.

conditions to avoid: None known.

**Incompatibility:** None known.

**Hazardous Decomposition Products:** Carbon monoxide, carbon dioxide, nitrogen oxides

**Hazardous Polymerization:** Hazardous polymerization will not occur under normal conditions.

**Stability:** Stable at normal temperatures and pressures.

**Significant Data with Possible Relevance to Humans:** None.

**Section 12 - Ecological Information**

**Ecological Information:** None known.

**Section 13 - Disposal Information**

**Disposal Information:** Liquids cannot be disposed of in a landfill. Dispose of material in accordance with all federal, state and local regulations. State and Local regulations/restrictions are complex and may differ from Federal regulations. Responsibility for proper waste disposal is with the owner of the waste. Do not flush into surface water or sanitary sewer system.

**EPA Waste Code if Discarded (40 CFR Section 261):** None

**Section 14 - Transportation Information**
Note: The shipping information provided is applicable for domestic ground transport only. Different categorization may apply if shipped via other modes of transportation and/or to non-domestic destinations.

Section 15 - Regulatory Information

CERCLA - SARA Hazard Category:

This product has been reviewed according to the EPA ‘Hazard Categories’ promulgated under Sections 311 and 312 of the Superfund Amendment and Reauthorization Act of 1986 (SARA Title III) and is considered, under applicable definitions, to meet the following categories:

Immediate Health Hazard, Chronic Health Hazard, Fire Hazard

SARA Section 313:

This product contains the following substances subject to the reporting requirements of Section 313 of Title III of the Superfund Amendment and Reauthorization Act of 1986 and 40 CFR part 372:

<table>
<thead>

</tbody>
</table>

Toxic Substances Control Act:

All ingredients in this product are either on TSCA inventory list, or otherwise exempt.

This product contains the following chemical substances subject to the reporting requirements of TSCA 12(B) if exported from the United States:

None

U.S. State Regulations

New Jersey Right-to-Know:

The following materials are non-hazardous, but are among the top five components in this product:

None

Pennsylvania Right-to-Know:

The following non-hazardous ingredients are present in the product at greater than 3%:

None

California Proposition 65:

Warning: The following ingredients present in the product are known to the State of California to cause cancer:
Warning: The following ingredients present in the product are known to the State of California to cause birth defects or other reproductive harm:

None
