Atticat®

# Expanding Blown-In PINK Fiberglas™ Insulation

## Manufacturers Fact Sheet

This fact sheet contains important details about Owens Corning's Atticat® Expanding Blown-In PINK Fiberglas™ Insulation. Read it carefully.

Owens Corning will accept no responsibility when the product is not installed in accordance with the product label. Stated R-value is provided by installing the required number of bags at a thickness not less than the label minimum thickness. Installation of the required number of bags may yield more than the specified minimum thickness. Failure by the installer to provide both the required bags and at least the minimum thickness will result in lower insulation R-value.

### Atticat® Expanding Blown-In PINK Fiberglas™ Insulation

Nominal Bag Weight 33 lbs.

R-Value	Bags per 1,000 Sq. Ft.	Maximum Coverage	Minimum Weight/Sq. Ft.	Minimum Thickness	Minimum Settled Thickness <sup>1</sup>
13	6.6	151.4	0.218	5.00	5.00
19	9.4	106.3	0.310	7.50	7.50
22	11.1	89.9	0.367	8.50	8.50
26	13.2	75.7	0.436	10.00	10.00
30	15.3	65.4	0.504	11.50	11.50
38	19.5	51.4	0.642	14.50	14.50
44	23.0	43.6	0.757	16.50	16.50
49	25.8	38.8	0.850	18.25	18.25
60	32.1	31.1	1.060	22.00	22.00

<sup>1</sup>This product shows negligible settling with no loss of insulating power (R-value) over time.

An Atticat® machine with a 2" and 2 1/2" diameter hose was used to determine the coverage information above. There are no settings that can be adjusted on the Atticat® machine.

Do not store this product outside as the bag is not weather proof and is not UV protected from direct sunlight.

### Read This Before You Buy

#### What you should know about R-Values

The chart shows the R-value of this insulation. R means resistance to heat flow. The higher the R-value, the greater the insulating power. Compare insulation R-values before you buy.

There are other factors to consider. The amount of insulation you need depends mainly on the climate, the type and size of your home, and your fuel use patterns and family size. If you buy too much insulation, it will cost you more than you'll save on fuel.

To get the marked R-value, it is essential that this insulation be installed properly.
